Re: Bass Lake Discretionary Septic Maintenance Program

Dear Property Owner,

Recently the Bass Lake Rate Payers Association approached Township Council requesting the implementation of a discretionary Septic Maintenance Program surrounding Bass Lake. Your property has been identified to be within the proposed subject area of 100m from the Bass Lake shoreline.

Staff are canvassing the affected property owners to provide information and obtain your feedback; your participation is key in aiding Township Council in their decision.

Should this discretionary program be implemented, it is important for Bass Lake residents to understand what to expect:

Properties owners will be required to:

- Submit a septic tank assessment report (user-pay pumping is required)
- Submit advance treatment maintenance agreements, where applicable
- Pay an Administration/Inspection fee of approximately \$200.00 (under review)

Township Staff will:

- Identify properties without the appropriate installation approval
- Conduct a visual inspection of the sewage system

Please take a moment to complete our survey by visiting [www.surveymonkey.com/r/HQSZYDH](http://www.surveymonkey.com/r/HQSZYDH) or by completing the enclosed copy, **by January 10, 2020.**

Thank you for your time.

Regards,

*Garry McCartney*
