

## CONSTRUCTION NOTICE:

### CONTRACT – WATERMAIN CROSSING LINE 4 & HORSESHOE VALLEY ROAD

#### Zone 1 Integration – Cathedral Pines Road

October 18, 2019

Starting the week of October 21, 2019, the Township of Oro-Medonte will begin watermain work on Line 4 and Cathedral Pines Road, as shown on the map below. Construction is anticipated to be completed by the end of December, pending weather conditions and unanticipated circumstances.

#### PLANNED CONSTRUCTION WORK

The scope of work under this Contract includes extending the existing watermain along Line 4 under Horseshoe Valley Road with connection to the existing watermain in Cathedral Pines Road. Upon project completion, roadways and shoulders will be restored to their existing condition.

Before construction begins, the underground utilities, including existing watermains, gas, hydro and telephone, will be marked to avoid potential issues during construction works.

#### CONSTRUCTION IMPACT ON LOCAL RESIDENTS AND TRAFFIC

- Roads will remain open; however lane restrictions will be put in place to allow construction activities to proceed in a safe and efficient manner.
- Waste collection schedules will not change during construction.
- Special arrangements for mail delivery and school buses will be made, if required, although not anticipated at this time.
- Access to private driveways may be impacted at times during construction and associated works.
- Property owners/residents are reminded that underground systems such as lawn sprinklers, heated driveways and electrical conduits etc. may be within the Township-owned boulevard or property limits and may be impacted by the proposed construction work. The Township will not be responsible for damage to any privately owned items that are within the Township-owned boulevard or property limits.

The Township appreciates your co-operation and patience as we work to complete the construction as quickly and efficiently as possible.
