

CONSTRUCTION NOTICE:

CONTRACT: OCS RFT26-012

WARMINSTER SIDEROAD - Road Reconstruction, Drainage Improvements and Sidewalk Construction

June 30, 2026

Beginning the week of July 6th, 2026, the Township of Oro-Medonte will start road reconstruction work on Warminster Sideroad, as shown on the map below. Construction is expected to be completed by the end of September, weather permitting and subject to unforeseen circumstances.

PLANNED CONSTRUCTION WORK

The scope of work under this contract includes utility investigation, removals, earthworks, drainage improvements, curb and sidewalk construction, road reconstruction and reinstatement of disturbed areas and driveways.

Before construction begins, underground utilities including gas, water and hydro will be marked to help avoid potential issues during excavation.

CONSTRUCTION IMPACT ON LOCAL RESIDENTS AND TRAFFIC

- Roads will remain open, and lane restrictions will be put in place to allow construction activities to proceed in a safe and efficient manner. On certain occasions, road closures may be required. Residents will be given notice before any road closures.
- Access to private driveways will be impacted at times during road reconstruction and associated work.
- Waste collection schedules will not change during construction, although the typical pickup time may be earlier than normal. Waste materials should be placed at the curbside by 7 a.m. on your designated collection day.
- Special arrangements for mail delivery and school buses will be made if required.
- Property owners and residents are reminded that underground systems such as sump pump lines, lawn sprinklers, heated driveways, electrical conduits, and similar private infrastructure may be located within the Township-owned boulevard or property limits and may be impacted by the proposed construction work. The Township will not be responsible for damage to any privately owned items that are within the Township-owned boulevard or property limits. All sump pump lines should be terminated at property line above grade.

The Township appreciates your co-operation and patience as we work to complete the construction as quickly and efficiently as possible.
