

BRUSH CLEAN-UP

ICE STORM 2025

The County and our partner municipalities are offering the following storm clean-up supports for our residents.

FREE BRUSH DROP-OFF EXTENDED TO THE END OF MAY 2025

- Fees waived for brush drop-off at Simcoe County Waste sites until the end of May 2025.
- This is fastest way to remove debris.
- Private brush debris **contractors are not charged** unless the material is clearly unrelated to the storm. Root balls will incur a charge, as they require additional processing.
- For a full list of County waste drop-off facilities, including temporary sites, visit simcoe.ca/waste.

CURBSIDE COLLECTION UPDATES

- Regular leaf and yard waste trucks are currently collecting smaller brush piles only in the hardest-hit areas of the County.
- These trucks can only collect branches/limbs up to 2 m in length and 10 cm in diameter and we ask that piles be manageable for one person to clear.
- Bundling of brush is not required, but it's preferred as it will help us help our communities faster.

COLLECTING LARGER BRUSH, BRANCHES & LIMBS

- The County, with our municipalities, is procuring additional resources to collect and process larger brush debris.
- Larger limbs can be left at a safe distance from the curb and will be collected and processed in time.

Tip: Sort debris into smaller and larger brush piles. Crews will collect what they can now, and return later for larger branches and limbs.

Thank you for your continued patience, as this may take months to clean up completely.
